

# Consumer Price Index (CPI): Overview

According to the Bureau of Labor Statistics, 'The Consumer Price Index (CPI) is a measure of the average change over time in the prices paid by urban consumers for a market basket of consumer goods and services.' These CPI graphs reflect the spending habits of all urban consumers and urban wage earners. These consumers represent 87.0% of the total United States population. The value of the basket of goods that this index measures consists of expenditure items in more than 200 categories.
